

## Environmental/Conservation

### Mandatory

Participates in a minimum of one trash clean up event annually.

- You can host your own clean up or participate in any of the established clean up events including the annual Beaver Lake Cleanup held during National Public Lands Day.

Posts Invasive Species signage at all boat launch areas.

### Additional

Provide educational information related to the efforts of the Clean Marina program in marina publications

- Provide information about the program and educate patrons about how they can play a role in protecting our water resources through publications such as: newsletters, signage, social media, and websites. Information can be taken from this publication or program website.

Make available annual water quality information

- [Status of the Watershed Report](#) contact [Ozarks Water Watch](#) to request copies of report.
- Annual copies of the Beaver Lake Monitoring Program Report

Participates in Secchi Day on Beaver Lake

- Marina can provide a boat or a team for Secchi Day on Beaver Lake
- Marina advertises Secchi Day on Beaver Lake on social media, in newsletters, and through posted flyers

Makes available information on local water quality groups and their efforts

- Contact local watershed groups for more information. Many groups have publications and information they can provide to you for distribution in your marina.
